

## **Reel E-Z Display**

JUNE 01, 2003 -- This revolutionary signage hanging system allows retailers to change ceiling graphics while keeping their feet on the ground. A pull-down pole is available that makes changing graphics easy, even for one-day sales. The Reel E-Z Display system hangs signs at equal heights around the store and works with 8-ft. to 14-ft. ceilings. Once installed, the average time to change ceiling signs is less than two minutes. Lake Forest, Ill. (320) 358-0687; [www.reelezdisplay.com](http://www.reelezdisplay.com).
